IT-INCUBATOR

Front-end developer

(React, Redux, TypeScript) | 2020

Work with React, Redux, TypeScript, REST API, GIT, Heroku, Material UI, Ant Design, StoryBook, TDD, Working in teams

PERSONAL PROFILE

I have experience with React, Redux, TypeScript as the main stack, and I want to develop in this direction. There is also interest in the back-end. In my spare time, I work on my own project, and in this regard, I already get acquainted with GraphQL and Apollo. Ready to consider project work and full-time employment.
